

DeWit® original Dutch handhoe 12cm right ash handle 140mm

This traditional Dutch handhoe is used for weeding and loosening soild in your border, raised beds and containers. You bring the weeder from you and place it on the soil, by pulling the weeder towards yourself the blade goes below surface and cuts trough the soil. By moving the blad from and towards you the roots of the weeds are also cut form the dirt. Once the roots of the weeds are cutted they wil stop growing. You can choose to leave them in the dirt or you remove them after you have loosened the roots for the dirt with the weeding hoe.
