## Tulip bulbplanter ash T-handle 800mm

The Tulip Bulbplanter is made with an 80 long T handle made out of Ash. As an extra we have created a "step" so you can use your foot to push the planter into the dirt. Find the position in the border where you want to plant your bulb, place the planter and push it into the soil, when needed with some extra pressure to put your foot on the steps. After you have created the hole, you place the bulb in the hole and bring to dirt back into the hole.

### Specificaties

Item nr	Omschrijving	Gewicht	Formaat	Handgreep
020510	Bandhamer met langesteel en nylon koppen	1,90	300x190x190
