DeWit® Mini Push Hoe with long ash handle

Sometime the weeds are growing in your full flowerbed and you can't find a right weeder because they are all to large. To remove weeds in your flowerbeds you pull and push this weeder under the surface to loosen the weeds. It's nice and small size gives you the benefits to weed without damaging your flowers and plants. Works great on tiny spaces in between plants and flowers. The 1400mm long ash handle is a real back saver.
